Harold Weisberg
Hyattstown, Md. 20734

Dear Mr. Weisberg,

I have been re-reading *Whitewash* and would like to know where I could obtain pictures of the "blown-up" version of the Altgen's picture, unaltered as it appears in *Whitewash* and is described in *Whitewash* II.

I would also like to know if I could obtain a copy of the 8mm. movie film that was taken by Abraham Zapruder. Any source that you could refer me to in purchasing this film would be greatly appreciated.

As I am relatively new to this whole complex study, and am trying to get all the help that I can, I am trying to get my information from a first rate source. I have acquired a National Archives Researcher card. Could you tell me what material this entitles me to see and what it does not? The reason I have asked this is because I would like to have some access to see and obtain color slides reproductions of the Zapruder film along with the 8mm. copy. Also I would like to know if I could obtain directly from you the "cropped" picture versions that are described in your books. If this is available from the Archives, what identification numbers would be needed in ordering them?

I have read books by Mr. Lane, Mr. Epstein, Mr. Buchanan, and Mr. Papkin, but none have met the accuracy or thoroughness that your two present books have. Personally, I feel that it is a terrible shame that your books could not be presented to the public in a more desirable container, but as well evident at a later date your books will be the last chance to obtain the truth.

During the course of many publications of the press, you have been described as a poultry farmer. It interests me to no end that if a mere poultry farmer can dig up such substantial facts without much interest from the opposition, this can only mean one thing. The poultry farmer has gone and spilt the beans on the whole Warren Commission farce.

I know that you are well qualified to write on any subject as pertinent as this assassination because it is obvious by your books alone.

I will be extremely indebted for all the help you may possibly give me as I know your time is precious.

Thank you,
Mary J. Acker.
